FRAILITY/SARCOPENIA

Integrated Care

The W.H.O just released a video on integrative care to maintain functions look at the video [Video](#)

Maintain Intrinsic capacity

WHO released the first ever World report on ageing and health and the Global strategy and action plan on ageing and health that was adopted by the 2016 World Health Assembly. These two milestone documents introduced a new concept called intrinsic capacity. However, the clinical utility of the concept is less understood. During the next ICFSR: WHO Symposium: Healthy Ageing and Integrated Care for Older People will bring together global experts in the area of geriatrics, musculoskeletal, and public health to introduce WHO's new clinical concept (intrinsic capacity), biological theory underpinning the idea, operational definition for clinical population, evidence for cost-effective intervention, and integrated care model for implementation. Also, the symposium will launch new WHO clinical guideline on integrated care for older people.

CONGRESS AGENDA

ICFSR 2017

International Conference on Frailty & Sarcopenia Research

27-28 April, 2017
Barcelona, Spain

**Late Breaking News
February 2 to 17, 2017**

.....

IANA2017

The 12th International Academy on Nutrition and Aging “Nutrition and maintaining functions with aging”

Sunday 23rd July, 2017
San Francisco, USA

.....

IAGG 2017

23-27 July, 2017
San Francisco, USA

.....

NURSING HOME

13-14-15 October, 2017
Saint Louis, USA

**For oral communication and poster call for abstracts:
deadline June 26, 2017**

.....

CTAD

10th Clinical Trials on Alzheimer's Disease

November 2-4, 2017
Boston USA
